Email:ankit010106@gmail.com
Mobile: +91 9435763184

Skills

Languages: Java, JavaScript, PHP, Python

Web Technologies: HTML and CSS
Frameworks & Libraries: React.js, Node.js

Tools/Database: MySQL, Linux, GIT

Soft Skills: Problem-Solving Skills, Time Management, Team Collaboration, Adaptability & Flexibility

Training

CipherSchools Jun' 25 – Jul' 25

Data Structures using C++

- Implemented core Data Structures including arrays, linked lists, stacks, queues, trees, and graphs in C++, strengthening problem-solving foundations and coding efficiency.
- Practiced algorithmic techniques such as recursion, sorting, searching, greedy methods, and basic dynamic programming to improve logical thinking and solution optimization.
- Applied time and space complexity analysis (Big-O) to evaluate algorithm performance and refine solutions for better scalability.
- Developed a mini-project applying DSA concepts (e.g., task management / library system / student record manager), integrating data structures for efficient data storage and retrieval.

Projects

Rent-A-Ride | GitHub Link |HTML,CSS,Js | Oct'25 - Nov'25

- Designed and developed a responsive frontend for a Car Rental platform tailored for college students using HTML, CSS, and JavaScript.
- Implemented user authentication interfaces (login/signup) with light and dark theme toggle for improved user experience.
- Structured vehicle listing components with clear pricing display and reusable card-based UI design.
- Enhanced user experience using smooth CSS transitions, rounded UI components, and scroll-reveal animations for a modern, polished interface.

Land Tax and Property Management System | GitHub_Link |HTML, CSS, JS, PHP | Feb'25 - Apr'25

- Engineered a full-stack Land & Property Management System using **PHP and MySQL** to manage and track land records efficiently.
- Developed optimized CRUD operations for storing, updating, and retrieving property data with improved query performance.
- Designed a normalized relational database schema to ensure data integrity, fast search functionality, and accurate record retrieval.
- Implemented secure backend architecture with session-based authentication, server-side validation, and protected record verification workflow

Certificates

- MOOC in Packet Switching Networks and Algorithm by **Coursera** Sept'25 - Nov'24
- MOOC in Privacy and Security in Online Social media by **NPTEL** Jan'25 - Apr'25

Achievements

Secured Learner Badge in MongoDB Indexing Design Fundamentals | **LinkdIn** Jun'25
Secured Learner 3star Silver Badge on Hackerrank| Hackerrank Nov'25

Education

Lovely Professional University Aug'23-Present
Bachelor of Technology
Computer Science and Engineering CGPA:6.61

Kendriya Vidyalaya No.1 Airforce Station Adampur Apr'22 – Mar'23
Intermediate; Percentage: 68%

Kendriya Vidyalaya Airfroce Station Avadi Apr'20 - Mar'21
Matriculation; Percentage: 85%
